

The background of the entire image is a photograph of a desk. In the foreground, there is a laptop with a red bookmark or paper sticking out of it. Several sheets of paper are fanned out, appearing to blow in the wind. In the background, there are two green chalkboards with some faint writing on them. The overall lighting is soft and focused on the desk area.

2023 TRAINING ACADEMY

The Academy is keen to assist and support aspiring professionals.

The Academy program is available to;

- School leavers
- 2nd Year Graduates
- 3rd Year Graduates

Those accepted in our Academy program will benefit in many ways relative to their progress and achievements.

NIKITA'S STORY

I started out in June 2021 as a graduate auditor, which was when my HLB adventure began. I have a Bachelor of Commerce degree majoring in Accounting and Management. HLB has greatly aided my development, from my work as a graduate to an Audit Associate. My exposure has helped me to become more self-aware and better able to recognize my personal talents and flaws. Given the chance to work closely with the Audit Director and Partners is a privilege because they have extensive industry knowledge, keen insight and are always eager to attend to queries and resolve complex issues.

HLB Mann Judd - Fiji is a perfect place for me to grow in terms of self-confidence, initiative, maturity, and self-management. A year and a half later, here I am working as an Audit Senior with the A-Team. Being part of HLB has given me a wealth of knowledge and the opportunity to work with a variety of clients, from conducting audits of schools, listed companies, councils and trusts to overseeing the most recent offshore UK project. Being exposed to offshore work has provided me numerous opportunities to collaborate with professionals who possess difficult-to-find skills.

The challenges I have faced in my career has molded me professionally bringing me out of my comfort zone. Hence, I plan to keep striving and enjoy the field and the people that I am professionally connected to. Looking forward too many more wonderful experiences at HLB.

APPRENTICESHIP PROGRAM BENEFITS

School Leavers will learn skills from Day 1 and develop skills as they progress under friendly mentorship.

Graduates will join a program and gain work experience as they go through the degree process.

During school breaks graduates will join our office environment and buddy with a senior as an attachee.

Be paid while on attachment.

Be part of our social team

High achievers will receive additional benefits; such as assistance with tertiary fees

LIMIVA'S STORY

Throughout my 3 years of degree programme in accounting, I have always wondered how it will be like working in a CA firm, how the theory of what we have studied be the reality in the accounting field. Being in my final year, I was eager to experience working in a CA firm. So, I joined the HLB Mann Judd (Fiji) as a trainee in June 2017 during the semester break. During the apprentice period in HLB, I got exposure to different aspect of the firm from administration work to assisting staffs with their data entry for a diverse range of clients. While assisting staffs, I got to see the wide range of clients along with the different kind of services the firm is engaged to offer, such as tax planning, financials compilation, management bookkeeping, and diverse kinds of audit.

From this experience, I completed my final semester and was determined that I wanted to join a firm that will allow me to have exposure to diverse range of accounting services. Accordingly, HLB Mann Judd (Fiji) was that firm for me therefore, I joined the firm in 2019 as a graduate accountant and started out in the BAS division doing financials compilation for tax lodgments and management monthly lodgments. In June 2021, the firm offered me the opportunity to join the audit division and be part of an offshore secondment programme with HLB Mann Judd Perth WA as an audit intermediate. Currently, in this program, I have exposure to audits of listed and unlisted Australian entities. Along with offshore audits, I have been able to work on local company audits and financials compilations using different accounting software. With the current work engagement, I am still able to complete the units for becoming FIA member and with the support of the firm I believe I can further my education in the future.
